OPEN EDUCATION

ePathshala: High quality, curriculum-based, interactive e-content in Law and other disciplines - https://epgp.inflibnet.ac.in/ → Social Sciences → Law

MOOC - Massive Open Online Courses: More than 200 of leading universities and institutions of higher learning in the US, UK, European Union, Australia, India and in many other countries are partnering with different MOOC platforms to provide high quality education for the potential learners across the world. Learners in MOOC platforms do have the opportunity to interact with real experts. Some of the more famous MOOC platforms are:

FutureLearn: https://www.futurelearn.com/ - Started in late 2013, this company is owned by The Open University, UK.

Coursera: https://www.coursera.org/ - The platform believes in stronger student learning outcome is possible in online learning, which is designed and developed with video lectures, interactive quizzes, mastery learning, learners' forum and peer graded assessment; than in face-to-face interaction.

Edx: https://www.edx.org/ - Through its institutional partners, the **XConsortium**, along with other leading global members, EdX presents the best of higher education online with cutting-edge technology, innovative pedagogy, and rigorous courses.

Udacity: https://www.udacity.com/ - Learn the latest in Deep Learning, Machine Learning, Web Development & more, with Nanodegree programs & free online courses.
